

WHOLE TYRE EXPORT BAN.

**WE CAN
BENEFIT
FROM THIS
CHALLENGE**

The COAG ban on the export of whole used tyres from **December 2021** reflects concern on behalf of all Governments in Australia that improved environmental outcomes are required for end-of-life tyres in Australia.

**OUR
TIME
STARTS
NOW.**

Tyre Stewardship Australia (TSA) is reaching out to all organisations exporting baled tyres to register to participate in TSA's Balers Transition Program where you will benefit from our support, including liaison with relevant local and state Government departments on licences, applications and approvals requirements.
